**DJH Go2CITY.** A trip to Cologne is not like any other city visit, because the city is like a time-travel portal to different eras and cultures, past and future. Pick your individual journey of discovery from the great options available, including the Roman-Germanic Museum, the Adventure Museum „Odysseum“, the Perfume Museum (Cologne was invented in Cologne!), and many others.

Student groups and other group programmes run more smoothly with special attention to city trips. Details like transportation, accommodations, and itineraries need more thorough planning than most trips for regular city tourists. **DJH GO2CITY** ensures that planning doesn't turn into a full-time job for the group leader by creating personalized Cologne city itineraries. You can rely on our many decades of experience and the many options for your groups that come with that.
